

# Program

## Topic: Vestibulopathies and Skull Base Surgery

- 14.00 h** **Welcome address**  
Anton Valavanis, Prof. em. Dr. med. / Michael Weller, Prof. Dr. med.
- Session 1: Vestibular paroxysmia**  
Chair: Michael Weller, Prof. Dr. med.
- 14.05 h** **Diagnostic criteria**  
Dominik Straumann, Prof. Dr. med.
- 14.20 h** **Imaging of the vestibulocochlear nerve**  
Athina Pangalu, MD Dr. med.
- 14.35 h** **Short circuit in the vestibular nerve - what to do?**  
Konrad P. Weber, Prof. Dr. med.
- Session 2: Research Awards Ceremony of the Clinical Neuroscience Center**  
Chair: Luca Regli, Prof. Dr. med.
- 14.55 h** **Laudatio**  
Gabriela Senti, Prof. Dr. med.
- 15.05 h** **Development and external validation of a clinical prediction model for functional impairment after intracranial tumor surgery**  
V. E. Staartjes
- 15.10 h** **HLA-DR15 molecules jointly shape an autoreactive T cell repertoire in multiple sclerosis**  
J. Wang
- 15.15 h** **Immunocytokines are a promising immunotherapeutic approach against glioblastoma**  
Tobias Weiss, Dr. med. Dr. sc. nat.
- 15.20 h** **Coffee break**
- Session 3: Vestibular schwannoma**  
Chair: Zsolt Kulcsar, PD Dr. med.
- 15.55 h** **Natural history and indications for treatment**  
Tiit Mathiesen, Prof.
- 16.20 h** **History and evolution surgery: from lifesaving to hearing preservation**  
Marcos Tatagiba, Prof. Dr. med.
- 16.45 h** **Standard surgical approaches**  
Luca Regli, Prof. Dr. med.
- 17.00 h** **Radiotherapy: when and how**  
Nicolaus Andratschke, Prof. Dr. med.
- 17.15 h** **Yaşargil Lecture**  
**Laudatio for Professor O. Al-Mefty**  
Luca Regli, Prof. Dr. med.
- 17.25 h** **Yaşargil-Lecture: Title to be announced**  
Ossama Al-Mefty, M.D., F.A.C.S
- 18.00 h** **Apéro**
