

BIRC 2018

Bern Interventional Radiology Course
Bern, 8.–10. November 2018

1st Announcement

Invitation

Dear Colleagues

minimally invasive, image-controlled procedures are becoming increasingly important in today's medicine.

For this reason, we offer a comprehensive three-day course that provides both the theoretical

background and hands-on exercise in three of the most important fields in interventional radiology: Vascular, Liver, and Breast.

Internationally and nationally known, high-caliber speakers ensure an interesting, diverse program and practical skills training, which enable you to offer these interventions in your own hospital.

We look forward to welcoming you to Bern.

Prof. J. Heverhagen

Prof. G. Nöldge

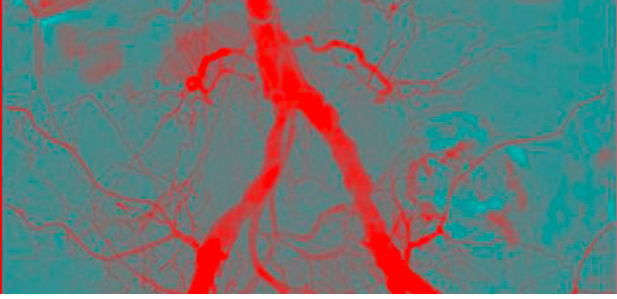

A.-Ch. Stamm

Dr. C. Tappero

Prof. F. Dammann

Dr. S. Kudrnová

PD M. Maurer
