WELCOME

Dear colleagues

We hereby invite you to the second module of the SFCNS Imaging Course by the Swiss Federation of Clinical-Neuro-Societies that will for the first time take place virtually in 4 parts on March, 4 / 11 / 18 and 25, 2021.

The SFCNS Imaging Course is a multidisciplinary course teaching how to read and interpret neuro-imaging data from basic to advanced levels. It is aimed at physicians working in one of the clinical neuro-disciplines.

We were able to attract excellent speakers and prepared an attractive program focusing on the practical application of neuroimaging. The course will focus on:

- Update WHO brain tumors edition 5 - What and why?
- Spinal Tumors and Differential Diagnosis
- Brain Tumors and Differential Diagnosis in Children
- Multimodal Imaging and Advanced Imaging Analysis in Gliomas

We are looking forward to welcoming you to our virtual program and to your participation!

Kind regards

Prof. Christoph Stippich, MD
Vice-President SSNR

Prof. Ph. Lyrer, MD
President SFCNS
